

Market Access Workshop on Cosmetics

Ensuring the Safety and Efficacy of Cosmetic Products

Date : 12 – 13 October 2010 (Tuesday - Wednesday)

Time : 9.00 am – 5.30 pm

(Registration starts at 8.30 am)

Venue : York Hotel Singapore, Carlton Hall, Level 2

Supported by:

Jointly organised by:

SPRING
singapore

From 1 January 2011, the Health Sciences Authority (HSA) will be enforcing the ASEAN Cosmetic Directive (ACD) after a three-year grace period. All companies which manufacture or distribute cosmetics in Singapore must comply with the ACD requirements.

This is a series of three technical workshops that will cover the safety and efficacy requirements, and good distribution practice. It will equip you with the knowledge and skills to comply with the Directive.

What you will learn

WORKSHOP 1: Cosmetic Products Efficacy

Efficacy tests provide assurance to manufacturers, distributors and importers on the safety of the products used under normal conditions. This workshop teaches you how to design efficacy testing and evaluate the test results to support the efficacy claims of your products. You will learn how various conditions influence the test results, the difference between consumer evaluation tests and clinical tests, how to read test reports and extract evaluation results to support your efficacy claims.

WORKSHOP 2: Good Distribution Practice (GDP)

The handling and transport of products throughout the supply chain play an important role in ensuring the products' quality and prolonging their shelf life. Through this workshop, you will understand the "Whats" and "Hows" of GDP to ensure your cosmetic products are properly handled during the distribution process. GDP covers the flow from manufacturers via transporters to the distributors/ wholesalers, warehousing companies and retail shops.

WORKSHOP 3: Hands-on Training on Cosmetic Safety Evaluation

This workshop uses real cases to give you the hands-on experience of reading clinical test data and interpreting results. It will provide you with first-hand knowledge of how to evaluate the safety of product formulations.

Who should attend

This workshop is for cosmetic products brand owners, manufacturers and distributors as well as representatives who are responsible for ensuring compliance with the Directive.

The workshop is specially suited to those involved in:

- Quality Control and Quality Assurance
- Research and Development
- Formulation Development
- Production
- Logistics and Supply Chain
- Documentation
- Business Development

Programme

12 Oct 2010	9 am – 12 noon	Workshop W1	Cosmetic Products Efficacy
	2 pm – 5 pm	Workshop W2	Good Distribution Practice
13 Oct 2010	9 am – 5 pm	Workshop W3	Hands-on Training on Cosmetics Safety Evaluation

Our Trainers

Dr Alain Khaiat, PhD

President, Seers Consulting

Dr Khaiat established his consulting firm SEERS Consulting after serving 10 years as the International Vice President of Research & Development, Asia Pacific for Johnson & Johnson Consumer Division, Singapore.

Dr Khaiat is President of the Cosmetic, Toiletry and Fragrance Association of Singapore (CTFAS); Chairman of the ASEAN Cosmetic Association, a member of the ASEAN Cosmetic Scientific Body; and an advisor on cosmetics safety for Singapore's Health Sciences Authority. He is also an international expert on cosmetics with organisations such as the European Commission, the World Bank and the UN-International Trade Center.

Dr Bhashkar Mukerji

Toxicology Manager, Johnson and Johnson (Asia Pacific)

Dr Mukerji is responsible for the full pre-clinical toxicology review for all consumer and OTC products of J&J in the Asia Pacific. He is well-versed in the technical and operational needs of product management in FMCG and pharma sectors, handling products for their QA/QC functions.

He is a member of the American Society of Toxicology and is actively involved in various agencies and industry organisations like ASEAN Cosmetic Association (ACA), on matters concerning cosmetics product safety and toxicology.
